

OFC - Provincial Public Safety Telecommunications Project Fleetnet Radio Equipment Support Plan for Public Safety Agencies

- A. The Office of the Fire Commissioner has acquired on loan, a limited inventory of Fleetnet portable radios and desk top battery chargers from our SaskPower project partners that will be available for deployment January 1st 2009 to approved Public Safety Agencies.
- B. Deployment of the radios to emergency service agencies will be based on the following priorities:
1. **Priority One:** Where equipment failure is currently posing a direct threat to life and safety of emergency service personnel.
 2. **Priority Two:** Where equipment failure is imminent and may pose a threat to life and safety of emergency service personnel.
 3. **Priority Three:** Where current equipment failure has a significant operational impact for emergency response.
 4. **Priority Four:** Where a need exists but the agency does not currently operate Fleetnet equipment.
- C. **Procedure:**
1. **Step One:**
The requesting agency contacts the Provincial Public Safety Telecommunications Project office and requests assistance:
1-888-953-3693 Fax: 1-306-953-3697 or e-mail: ppstn@gov.sk.ca
 2. **Step Two:**
Provincial Public Safety Telecommunications Network project staff will follow up with the requesting agency to determine:
 - a) The priority of the request.
 - b) The number of units required.
 - c) Lid numbers and talk group information.
 3. **Step Three:**
Provincial Public Safety Telecommunications Network project staff will evaluate the request and:
 - a) Determine the number of units available.
 - b) Program the units to be deployed and ensure the radio(s) are fully operational.
 - c) Inventory the deployment.
 - d) Arrange for deployment to the requesting agency at the requesting agencies expense.
 4. **Step Four:**
Upon receipt of the replacement equipment the agency will:
 - a) Acknowledge receipt of the equipment.
 - b) Confirm the operational status.

D. General:

1. All monthly subscriber, maintenance and repair costs of the loaner equipment will be the responsibility of the receiving agency.
2. Damage and loss of equipment will be the responsibility of the requesting agency.
3. Requesting agencies with equal priority needs will be accommodated on a “first come - first serve” basis.
4. Once deployment of new radio system occurs, all radios and equipment will be returned to the Office of the Fire Commissioner.
