SAFC Virtual Annual General Meeting

June 13, 2021 – 1900hrs

Agenda

1. Call to order.
2. Greetings from President Mike Kwasnica
3. Approval of the December AGM minutes
4. Approval of /additions to the agenda
5. Presidents Report
6. Executive Directors Report
7. Review Audit Report and 2020 Financial Statements
8. Directors Reports
 - Zone 1 – Jeff Hornung
 - Zone 2 – Erwin Jackson
 - Zone 3 – Brad Hutton
 - Zone 4 – Shayne LaMontagne
 - Zone 5 – Harry Wilkins
 - Zone 6 – Yvonne Raymer
 - Zone 7 – Dennis Ogg
 - Zone 8 – Joe Grela
 - Zone 9 – Les Karpluk
 - Zone 10 – David Balding
9. Division Reports
10. Elections – 2021 is even zone 2, 4, 6, 8, and 10.
11. Resolution Committee Report
12. New Business

Adjournment

SAFC VIRTUAL CONFERENCE & TRADE SHOW SCHEDULE

April 30 - May 1, 2021

2020

Friday April 30th, 2021

18:00 - 18:30

Opening Ceremonies

18:30 - 21:00

Tradeshow

Saturday May 1st, 2021

08:00-08:45

Session 1 - Sask Public Safety Agency

Presenter: Marlo Pritchard, President, Saskatchewan Public Safety Agency

09:00-09:45

Session 2 - Lightning Round PSPNET

Presenter: Jody Burnett, Registered Doctoral Psychologist, PSPNET

10:00 - 14:00

Tradeshow

10:00-10:45

Session 3 - HazMat Awareness

Presenter: Doug Wegren, Fire Service Instructor, Saskatoon Fire Department

11:00-11:45

Session 4 - Fire Code/Carbon Monoxide

Presenter:

Yvonne Raymer, Assistant Chief, Saskatoon Fire Department

Trevor Davies, Operations Lead, SaskEnergy

13:00-13:45

Session 5 - Redefining Fire Service

Resources

https://cdn.ymaws.com/cafc.ca/resource/resmgr/reports/redefining_fire_en.pdf

Presenters:

Morgan Hackl, Fire Chief, Saskatoon Fire Department

John McKearney, President, Canadian Association of Fire Chiefs, Fire Chief,

Whistler Fire Department

Mike Kwasnica, President, Saskatchewan Association of Fire Chiefs,

Fire Chief, Humboldt Fire Department

14:00-14:45

Session 6 - Cancer Prevention/Presumptive Legislation

Presenters:

Mike Ralston, Deputy Fire Chief, Saskatoon Fire Department

Rob Hogan, Battalion Chief, Saskatoon Fire Department

15:00-15:45

Session 7 - Rehab/Incident Safety Officer

Presenters:

Anthony Tataryn, Assistant Chief, Saskatoon Fire Department

Trevor Warren, Fire Service Instructor, Saskatoon Fire Department

16:00-16:45

Session 8 - Stored Energy Systems (solar and electric vehicles)

Presenter: Shayne Mintz, Canadian Regional Director, National Fire Protection Association (NFPA)

This has been my first few months as President, and we have been over a year into a worldwide pandemic. This has challenged us all in coming up with new ideas, new ways of doing our duties and trying to balance life, work and maintaining good mental health. The SAFC along with the Saskatoon Fire Department were able to provide the first virtual conference in the SAFC history, which turned out great.

The SAFC is happy to be in partnership with the SPSA with several initiatives which include Provincial certification and expanding this to other areas that we have not had available to fire departments in our province. Saskatchewan minimum standards is a key discussion for 2021 with the hopes of having a draft for all to see by the fall of 2021. The Blue Light campaign has been an initiative for the SAFC also in 2020 and will be a continued discussion point with the SPSA.

I look forward to the point where we can all meet in person again and share experience, stories and building relationships. These relationships are a key part of our industry and its when times are tough that we rely on our friends and neighbors for assistance.

2020 was a year that we all were forced to isolate, adapt, and persevere to continue to provide the valuable service that we all do. I would like to say how proud I am being able to be a part of the Saskatchewan Fire Service and to be honored to able to represent the Saskatchewan Fire Chiefs as President. Good Luck in 2021 and hope to see you all soon.

Mike Kwasnica
SAFC President

SAFC EXECUTIVE DIRECTOR'S REPORT

2020

2020 started as any other typical year would. New year, a new decade, new beginnings. The board of directors had a very successful in-person meeting in Saskatoon at the end of January. Lots of hope for the new year moving forward. Planning was well underway for the annual conference and trade show to be held in Saskatoon. But covid 19 emerged and turned the world upside down.

We were mandated to stay home and practice social distancing by staying six feet apart. Told to wash our hands repeatedly and to wear a mask when we went out. The store shelves were empty. A whole new virtual world appeared.

Thank you for all the sacrifices you have made through the pandemic to keep us safe. From a shortage of PPE to self-isolating from your families for days or weeks at a time. It is truly an honour to work for the Fire Service family in Saskatchewan.

There is a light at the end of the tunnel, along with a whole new appreciation for the small things in life. The hugs, the handshakes, the in-person visits. I look forward to the day that I can put a face to all the names I have grown to know over the past year.

In closing, I would like to say thank you and congratulations to Chief Morgan Hackl and the conference planning committee in Saskatoon. The 2021 virtual conference was a huge success.

Together we will make the Fire Service in Saskatchewan stronger.

Stay Safe

Shelley Olson

Greetings from Zone 1 and the Great Southwest!

They say the only constant in life is change, well we've had that and more in 2020. With the advent of Covid-19 and the challenges that it has brought to the Sask Fire Service we have learned to adapt, modify and adjust in every aspect of the industry. Adjusting S.O.G's to accommodate the use of new P.P.E and training with said P.P.E. Finding space and time to train smaller social distanced groups of fire fighters all while expanding the disinfecting that goes along with it. Managing large grass fires with hundreds of fire fighters, farmers and ranchers all there for the same purpose yet taxing the health and safety of each other and coming home at the end of it all, hoping that you haven't caught Covid-19.

The good news is that we have changed, it is the very nature of our business as no two incidents are exactly the same we have always overcome the changes put before us and I applaud each and everyone of you for your dedication in these trying times!

Zone 1 had no in person meetings this year, rather we opted for joint conference calls with SVFFA Zone 1 Director Louis Cherpin and myself Zone 1 Director for the SAFC. A good number of those calls had discussion on Covid-19 and the use of the new P.P.E that was distributed from SPSA. Many good ideas were shared on S.O.G's, disinfecting and how we can all help each other. Zone 1 was extremely dry this year and with that brought many large field fires often involving 3 or 4 fire dept,s . Once again the true spirit of the Southwest came through at these events with people pitching in to stop these fires.

Good news the City of Swift Current Fire Dept has built a modern training ground and is generously offering its use to volunteer fire dept's free of charge. Thank You to Fire Chief Ryan Hunter and his team!

I am honoured and humbled to serve Zone 1 as SAFC Director it is a position that I am very proud of and take very seriously. I look forward to taking on a larger role in it!

Stay healthy, stay safe!

Jeff Hornung

Due to the pandemic and SHA regulations, we have not been able to hold a District meeting.

But have tried to pass on updates on issues affecting the fire service via Email and telephone conversations. Last year we experienced dry conditions, which increased the dangers of grass and field fires. Some areas saw an increase from the previous year while others saw a decrease caused by people being more prepared.

Due to the pandemic, there were very few joint training exercises taking place, and we hope to be able to change by the fall of this coming year as we all become vaccinated for covid 19.

Please stay safe, follow the health guidelines, and remember we are all in this together, and it will take all to come to a successful conclusion.

Erwin Jackson

Hello to all members of Region 3. I just started in January 2021, so I am new to the board of directors. I am looking forward to being able to represent this region. I am hoping to set up a joint meeting in the near future with all departments in Region 3 to get an idea of what each department is needing and what the SAFC can do for them.

We can all agree that 2021 has not been easy, from the Covid-19 Pandemic having restrictions preventing in-person regular meetings and training to extreme drought like conditions that caused many local departments, towns and rural municipalities to place fire bans throughout the entire province. The dry conditions have thrown many variables at us and the water sources have not been readily available if required at nearby dugouts or water wells.

The Covid-19 Pandemic has made each department get creative to be able to host regular meetings and training. Some departments hosted Zoom meetings and when allowed spread out in larger areas with Covid-19 restrictions in place and training was performed in smaller groups on different nights. In one way or another we all managed to adjust and are getting through the pandemic together. Masks are mandatory on all calls for everyone's safety.

The SAFC and SPSA are excited to announce that they have partnered together to make a book! This is a free education source that will be distributed to all schools for children from Kindergarten to Grade 5. These books will be made in Saskatchewan and distributed throughout the entire province.

I look forward to represent Zone 3 and get to know all the departments better.

Chief, Brad Hutton

Well 2020...It has been a tough year for all of us, by far the toughest year as a Fire Chief that I have experienced. Practices and training took on a very different look, my department split into three groups then down to two groups trying to stay within our maximum allowable numbers. Our focus was on meeting the minimum basic fire fighter training standards that are currently being developed by the SAFC and SVFFA. We utilized an online training program ACTION TRAINING available through a host Carlton Trial College based out of Humbolt. We have had some very good success as these video series puts all of us on the same page with theory. The programs are available to our members any time they want on a variety of platforms, we assigned two or three video lessons per month and had only one in person practice per team to train on the hands on skills we had learned on the videos. Our focus was trying to do as much of our practices using social distancing as possible, we did a lot of work on our training pad out behind the hall. Late in the fall our department spent our remaining training budget purchasing and placing 3 seacans to create the base for a new training facility. Keeping things interesting and challenging was a full time job in 2020 overall I would call our efforts successful.

From a board perspective we adopted zoom meetings and really did not miss a beat. We have been very active moving a couple of major projects forward. No in person meeting is definitely a hindrance but I feel we managed quite well with zoom and probably have gotten quite a bit better utilizing this platform and I would say we have better monthly meeting because of it. The biggest miss for me was not holding a region meeting. Getting together and discussing challenges and idea as a zone is critical to the success of our organizations. I look forward to the opportunity latter this summer to getting back to having these meetings, perhaps we can discuss using the zoom platform to have more regular zone meetings? Something we can discuss as a group moving forward.

I hope your departments adapted to 2020 COVID reality and were able to keep engagement high within your department and look forward to serving you on the SAFC board into the future.

Shayne LaMontagne

Director and VP SAFC zone 4

Greetings to all SAFC members. It has been a very trying year to say the least. We have been faced with many challenges due to Covid-19. Unfortunately, Zone 5 was unable to have any in-person meetings due to the pandemic. I hope that with the vaccine in place, we can get back to living a normal life (whatever normal is going to look like now), and be able to spend time with family and friends once again.

Although the SAFC Conference was delayed a year, Chief Hackl and his team of organizers did an outstanding job of putting together the first ever virtual Conference. There were many great speakers and hopefully everyone that participated was able to gain some knowledge.

The Sask Fire Service CISM program continues to stay active. The goal has always been and always will be to make sure NO firefighter ever has to deal with issues on their own. A HUGE thank you to the members of this team for taking the time out of your busy schedules to assist your Brothers and Sisters in their time of need. Also, a big Thank you to the SVFFA for their continued support to the CISM team. The team members are continually honing their skills to make sure they are doing everything they can to assist all Firefighters in a time of crisis. In the event you need CISM support for your Department, please contact the SVFFA Executive Director at (306) 520-3278.

If all goes well in the world of the Covid-19 pandemic, and vaccinations are a success, Yorkton Fire Protective Services will be hosting the 2022 SAFC Conference in person.

I look forward to seeing you in Yorkton.

Take care, stay safe, and most importantly, stay healthy.

Harry Wilkins

With the dry spring, many fire services in Zone 6 indicated they were managing resources quite well.

Training was a concern due to COVID concerns, restrictions, physical distancing and gathering limitations. The majority of the fire departments are not enjoying the virtual platform and find it difficult to engage their members through virtual training. Some participated in the SAFC conference and enjoyed the contact. Other fire services indicated they passed on the virtual platform.

Everyone expressed the same sentiment of waiting for a re-open where face to face meetings can begin once again.

Overall, there is a sense of coping quite well with the challenges they faced.

Vaccines have been offered which is a relief for members.

Moving forward, there has been interest expressed in sharing information and ideas between services on operational actions and training as well as fire prevention and public education/messaging.

Yvonne Raymer

No report was submitted.

Dennis Ogg

ROSETOWN FIRE DEPT
BOX 1436
ROSETOWN, SASK.
SOL 2V0
rstw.fire@sasktel.net

Hello to the Fire Department members in region 8. I hope all members were able to get their first vaccine to fight again COVID-19. I am hopefully everyone made it through the year with out any major losses.

My trip to visit our partnership department in Wettlebrunn, Germany was not possible due to COVID travel restrictions. Their COVID issues were pretty much the same as us.

Due to Saskatchewan Health restrictions and chances of spreading COVID-19 I was not able to have an in-person meeting. My sincere apologies for that.

The first virtual conference for the SAFC was a success. Many thanks for Saskatoon Fire for hosting this event.

The coming year will see some exciting changes coming to the Saskatchewan Fire Service.

I will not be seeking another term as Director for Region 8. It has been my privilege to serve on the SAFC board and I wish all the best to the next Region 8 SAFC Director.

Chief Holms from North Battleford Fire Department has been nominated by Chief Randy Elder from Wilkie Fire Department and was Seconded by myself, Joe Grela.

Of course, there will be opportunity for other members to be nominated for the Zone 8 Director if they so choose.

Joe Grela

On May 1, 2021 the Saskatoon Fire Department hosted our virtual conference titled ***Honoring Tradition—Embracing Change***. A big shout out to Fire Chief Morgan Hackl and his staff for putting together an incredible virtual conference that was a huge success.

In order to continue to follow health guidelines Region 9 did not meet in person as we generally have in past year. Typically, our Region 9 meetings have been a combined SAFC and SVFFA meeting where our members would be informed of the latest events and initiatives by both organizations. Earlier this year there was hope that we could finalize a date where a Zoom meeting would accommodate both SAFC and SVFFA region members but unfortunately this didn't materialize.

In order to keep Region 9 members abreast of the SAFC Board of Director initiatives, I have been relying upon email for communications. One of the challenges as a Regional Director is having an updated list of the names of Region 9 Fire Chiefs. Please ensure that our Executive Director Shelley Olsen has your contact info so we can provide you regular updates on our initiatives and news.

Region 9 members were regularly briefed of the SAFC BOD's work to have firefighters given priority for the vaccine. I, personally had many conversations with others regarding the importance of this request to the Province and we as board members were also communicating with our colleagues in other provinces and it wasn't a surprise that we all had a common theme of frustration when it came to the lack of prioritizing firefighters for the vaccine. With that being said Saskatchewan was ahead of some other provinces in getting the vaccine into the arms of firefighters and we can be cautiously optimistic about getting back into a normal life and being able to attend training weekends and conferences once again.

Feedback from Region 9 members have been supportive for the following SAFC initiatives;

- Emergency flashing blue lights for fire apparatus and vehicles, and
- Minimum training standards for firefighters in Saskatchewan.

I look forward to working with the SAFC membership and the Zone 9 fire chiefs as we continue to move forward with initiatives that are in the best interest of the membership.

Les Karpluk

SAFC Director Zone 9

I am pleased and honored to provide this report for our upcoming Annual General Meeting.

Since my recent appointment as Director for Zone 10 in 2020, I have had the privilege of participating in several virtual board meetings. Topics discussed included Raffle Box (an innovative fund raising initiative), Covid considerations and protocols, the S.A.F.C. constitution and our virtual conference. Unfortunately, due to personal reasons, I was unable to participate in the conference.

Our Annual General Meeting will be held this coming Sunday, June 13th and I intend on allowing my name to stand for the position of Zone 10 Director.

I thank every one of you for your support and engagement in this organization and very much look forward to connecting with you further.

Respectfully submitted,

Dave Balding

Fire Chief

Nipawin Fire Department

NOMINATIONS AND ELECTIONS COMMITTEE REPORT

This year the even-numbered districts will elect their representatives to the SAFC Board of Directors.

Region 2 Incumbent Fire Chief Erin Jackson from the Rockglen Fire will let his name stand.

Region 4 Incumbent Fire Chief Shayne LaMontagne from Regina Beach will let his name stand.

Region 6 Incumbent Assistant Fire Chief Yvonne Raymer will let her name stand.

Region 8 Incumbent Deputy Fire Chief Joe Grela will be stepping down. The SAFC Board of Director would like to thank Joe for all his time serving as Director of Region 8.

Chief Lindsay Holms from North Battleford has been nominated by Chief Randy Elder.

Region 10 Incumbent Fire Chief Dave Balding will let his name stand.

Chief Shaun Stewart from Melfort has been nominated by Deputy Chief Darrell Wickenhauser

LABOUR RELATIONS COMMITTEE REPORT

I am pleased to present this report highlighting the Labour Relation Committee's (the Committee) activity during 2020 in what was an extraordinary time for the Fire Service.

The Committee's Role and Mandate is to develop strategies relating to labour relations, research, develop initiatives for standards of practice, service delivery, scope of practice, OHS, and policy/procedure.

Collaboration began early in 2020 sharing response standards to COVID-19 as fire services across Saskatchewan were relied on with our highly skilled resources in emergency management and staff trained in Incident Command.

Partnerships strengthened within each jurisdiction with provincial ministries, Saskatoon Public Safety Agency (SPSA), and also with the Canadian Association of Fire Chiefs (CAFC). With this, the Saskatoon Fire Department was honoured to take part as one of eight department representatives interviews discussing pertinent Canadian fire service issues. The document titled Redefining Fire: The Evolving Role of Fire Departments in Canada was released by the CAFC and is a valuable resource for the Fire Service to reflect on.

The Terms of Reference for the Committee was reviewed, updated, and further discussion occurred regarding the mandate of the group.

Meetings with Marlo Pritchard, President SPSA, occurred with the Committee identifying priorities:

- Training and Certification
- Codes Standards
- Emergency Management Support
- Enable Regional Partnerships
- Public Educator

The Pandemic has created opportunities to meet through online platforms which has created valuable conversations. The Committee looks forward to the year ahead and being part of a coordinated effort to strengthen relationships with SPSA.

Labour Relations Committee
Fire Chief Morgan Hackl – Chair

INSPECTORS DIVISION REPORT

2020 was a challenging but successful year for the Saskatchewan Association of Fire Chief's Inspectors Division. We continued to meet, albeit remotely, and foster discussion around fire safety and prevention with the province. The division conducted virtual elections, replacing long serving members Lyle Derkson (Chair) and Brian Conway (Co-Chair). We would like to thank them again for their time and dedication to our association.

As with everyone in 2020, Covid caused some disruption within our industry. The division continued to facilitate communication with the province regarding ongoing fire prevention issues during the pandemic. We focused our time planning for small educational seminars at each of our quarterly meetings. During our fall meeting Kelsey Longmore of Kilo Lima Code Community presented on means of egress and exiting requirements. It was well attended online by our members and by members of the building code industry. Our division is aiming to ensure that we can achieve consistency across the province on common code related topics. We are looking forward to the resumption of in-person meetings and training opportunities in late 2021.

I look forward to the rest of my term as the Chair of the Saskatchewan Association of Fire Chief's Inspector's Division. I wish to extend a big "Thank you" to all my colleagues in the province for their support and guidance. We have a great team in place with excellent support from our many fire departments in the province.

Rod Klippenstein
Fire Prevention Officer
Moose Jaw Fire Department

INDUSTRIAL DIVISION REPORT

I will start my report with a thank you to outgoing chair Bernard Brule for his many years and contributions made to the position.

Going forward, I will introduce myself a little bit and move from there.

For those who don't know me, my name is Darren Arseneault and I am a Training Officer for the Mosaic Estherhazy Emergency Response Team and a Captain for Chruchrbridge Fire Rescue. I look forward to be able to interact with all of you soon.

As we see a light at the end of the tunnel forming, It looks like we are seeing a resurgence of training and commitment coming back to our industrial teams. I have been in contact with Parkland College to have some options laid out to build upon our past relations to allow for the unique challenges to delivery of the industrial fire programs within our province.

My email is d.arseneault@hotmail.ca.
my cell number is 306-896-3238. I will be reaching out via email in the near future to setup some discussions.

I look forward to being able to have these discussions with all of you soon. If their any concerns, I will be happy to help out.

Yours in service,
Darren

PUBLIC EDUCATION DIVISION REPORT

2020 was a year filled with changes and new opportunities for the Public Education Division. Division Chair Caitlyn Mazden of Regina Beach Fire Department stepped down for personal matters; SAFC President and board members asked me to interim chair the division. In the first meeting after the interim nomination, an election was held virtually to elect a chair. During the annual chief's conference, an additional election was held for all open positions and, we are pleased to announce and are excited to work with the following individuals elected to the board:

- Division Chair – Peter L'Heureux, Swift Current Fire Department
- Division Vice-Chair – Darrell Wickenhauser, Humboldt Fire Department
- Division Secretary – Shelley Olson, SAFC Executive Director

In an investigative discussion with the Saskatchewan Public Safety Agency to find who or if there was an SPSA staff assigned to public education, it was quickly recognized that there was a disconnect between our division and the province. SPSA Public Education Oversight, Executive Director of Enterprise Projects and External Relations Karri Kempf, was unaware that they could be involved or that there was a public education division of the SAFC. We discussed opportunities and collaborative efforts for us to better serve the Province of Saskatchewan, specifically regarding youth and school initiatives.

SPSA and the SAFC public education division are excited to announce a joint effort to provide a fire safety comic book to every kindergarten through grade five student in the province. These comic activity books are designed and drawn by a Saskatchewan artist with the art, storyline, and characters being specific to our province. We are excited to be reaching almost 100,000 Saskatchewan youth with fire safety education material, regardless of location or financial ability, as the books will be free of charge. Funding for the program will come primarily from the SPSA, with the remainder funded by contributions from individual fire departments.

We are excited to see an uptick in the attendance of departments using virtual methods with the hope build on this momentum through 2021 and into the future.

Peter L'Heureux
Deputy Fire Chief - Prevention and Public Education
Swift Current Fire Department

**SASKATCHEWAN ASSOCIATION
OF FIRE CHIEFS INC.**

FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2020

INDEPENDENT AUDITORS' REPORT

To the Members of
Saskatchewan Association of Fire Chiefs Inc.

Opinion

We have audited the accompanying financial statements of Saskatchewan Association of Fire Chiefs Inc. which comprise the statement of financial position as at December 31, 2020 and the statements of revenue and expenditures, changes in fund balances and cash flows for the year then ended along with the summary of significant accounting policies and other explanatory information.

In our opinion, the financial statements present fairly, in all material respects, the financial position of Saskatchewan Association of Fire Chiefs Inc. as at December 31, 2020 and its financial performance and its cash flows for the year then ended in accordance with Canadian accounting standards for not-for-profit organizations

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of Saskatchewan Association of Fire Chiefs Inc. in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian accounting standards for not-for-profit organizations and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing Saskatchewan Association of Fire Chiefs Inc.'s ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless management either intends to liquidate Saskatchewan Association of Fire Chiefs Inc. or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing Saskatchewan Association of Fire Chiefs Inc.'s financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Saskatchewan Association of Fire Chiefs Inc.'s internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on Saskatchewan Association of Fire Chiefs Inc.'s ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause Saskatchewan Association of Fire Chiefs Inc. to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

SASKATCHEWAN ASSOCIATION OF FIRE CHIEFS INC.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED
DECEMBER 31, 2020

1. THE ORGANIZATION

The Saskatchewan Association of Fire Chiefs Inc. was incorporated on March 18, 1989 under the Non-Profit Corporations Act of Saskatchewan. The association promotes fire prevention, fire safety and life safety in the province of Saskatchewan. As a non-profit organization, the association is not subject to income taxes.

2. SIGNIFICANT ACCOUNTING POLICIES

The financial statements were prepared in accordance with Canadian accounting standards for not-for-profit organizations and include the following significant accounting policies:

Financial Instruments

The association initially measures its financial assets and liabilities at fair value adjusted by, in the case of a financial instrument that will not be measured subsequently at fair value, the amount of transaction costs directly attributable to the instrument.

The association subsequently measures all financial assets and financial liabilities at amortized cost except for investments in equity instruments that are quoted in an active market, which are measured at fair value. Changes in fair value are recognized in deficiency of revenue over expenditures for the year.

Financial assets measured at amortized cost include cash, term deposits and accounts receivable.

Financial liabilities measured at amortized cost include accounts payable and accrued liabilities and payroll deductions payable.

Financial assets measured at cost are tested for impairment when there are indicators of impairment. The amount of any write-down is recognized in net earnings for the year. The previously recognized impairment loss may be reversed to the extent of the improvement, directly or by adjusting an allowance account, provided it is no greater than the amount that would have been reported at the date of the reversal had the impairment not been recognized previously. The amount of the reversal is recognized in net earnings for the year.

Tangible Capital Assets and Depreciation

Tangible capital assets are recorded at cost and amortized over their estimated useful lives. This requires estimation of the useful life of the asset and its salvage and residual value. When management considers that a tangible capital asset no longer contributes to the organization's ability to provide services, its carrying amount is written down to its residual value. As is true of all accounting estimates, it is possible that changes in future conditions could require changes in the recognized amounts for accounting estimates. Should an adjustment become necessary, it would be reported in earnings in the period in which it became known.

SASKATCHEWAN ASSOCIATION OF FIRE CHIEFS INC.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED
DECEMBER 31, 2020

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

Depreciation of tangible capital assets is calculated using the straight-line method at the following annual rates:

Furniture and equipment	10%
Computer equipment	20%
Trailer	10%

Depreciation on assets acquired during the year is recorded at the full annual rate. There is no depreciation recorded in the year of disposal.

Revenue Recognition

The association follows the deferral method of accounting for contributions. Restricted contributions are recognized as revenue in the year in which the related expenditures are incurred. Unrestricted contributions are recognized as revenue when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured.

SAFC conference revenue and membership fees are recognized as revenue when earned and when the amount to be received can be reasonably estimated and collection is reasonably assured.

Special event fundraising revenue is recognized as the applicable event is held.

Donated Material and Services

The association benefits from the donation of materials and services from its members. These financial statements do not reflect the value of these donations in kind since a fair value cannot be reasonably estimated.

Use of Estimates

The preparation of the financial statements in conformity with Canadian accounting standards for not-for-profit organizations requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenditures during the year. Significant items subject to estimate and assumption include the estimated useful lives of tangible capital assets. Actual results could differ from estimates.

3. TERM DEPOSITS

	2020	2019
	\$	\$
0.20% RBC GIC, matures August 25, 2021	76,421	-
0.85% RBC GIC, matures January 16, 2020	-	75,611
	76,421	75,611

SASKATCHEWAN ASSOCIATION OF FIRE CHIEFS INC.

NOTES TO FINANCIAL STATEMENTS

**FOR THE YEAR ENDED
DECEMBER 31, 2020**

4. ACCOUNTS RECEIVABLE

	2020	2019
	\$	\$
Trade receivables	3,446	1,200
Interest receivable	54	-
	3,500	1,200

5. DEFERRED CAPITAL CONTRIBUTIONS

The association purchased a trailer with funds from operations as well as contributions specifically for the purchase of the trailer. The deferred contributions are being brought into income at the same rate that the trailer is amortized.

6. TANGIBLE CAPITAL ASSETS

	Cost	Accumulated Depreciation	Net Book Value	
			2020	2019
	\$	\$	\$	\$
Furniture and equipment	2,172	1,302	870	1,087

Sponsorships	-	19,250
Companion revenue	-	10,220
Pre-conference training	-	550
	-	125,878

SASKATCHEWAN ASSOCIATION OF FIRE CHIEFS INC.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED
DECEMBER 31, 2020

8. FINANCIAL RISK

Liquidity Risk

Liquidity risk is the risk that the association will not be able to meet its financial obligations as they become due. Liquidity risk also includes the risk of not being able to liquidate assets in a timely manner at a reasonable price. The association is subject to liquidity risk on its liabilities. The association manages its liquidity risk by budgeting future cash flows and by monitoring cash resources and by keeping significant cash reserves in place. As described in note 9, the liquidity risk has continued to be higher than normal as a result of the current health crisis created by the COVID-19 virus and its economic impact.

9. UNCERTAINTY DUE TO THE COVID-19 HEALTH ISSUE

In March 2020 the World Health Organization declared the outbreak of a novel coronavirus (COVID-19) as a global pandemic, which continues to spread in Canada and around the world.

Management is uncertain of the effects of these changes on its financial statements and believes that any disturbance may be temporary; however, there is uncertainty about the length and potential impact of the disturbance.

As a result, we are unable to estimate the potential impact on the association's operations as at the date of these financial statements.

SASKATCHEWAN PROTECTIVE SERVICES MEDAL

2020

**Saskatchewan
Office of Protocol**

**Bureau du protocole en
Saskatchewan**

SASKATCHEWAN PROTECTIVE SERVICES MEDAL

Established in 2003, the Saskatchewan Protective Services Medal recognizes exemplary long service for individuals working in a direct capacity to protect people and/or property, and supervisory personnel in the public service sectors who ensure the safety, security and protection of Saskatchewan citizens. These individuals set high standards and strive for excellence in their duties so everyone in Saskatchewan can live safe and secure lives. The Saskatchewan Protective Services Medal honours protective services providers and focuses attention on the efforts and work of police, fire and emergency professionals, and others working in the field of safety and security.

CRITERIA AND SELECTION

Nominees must be personnel with 25 years of service in Saskatchewan and actively employed in one of the eligible agencies on or after January 1, 2003, who have law enforcement powers, or work in safety services and professions whose work is directly related to the safety, security and protection of people.

How do I nominate someone?
